HOUSE OF COMMONS
LONDON, [REDACTED]

11 November 2010

Dear Dr. Mew,

Thank you for your letter regarding your father's and your approach to orthodontics.

You ask that I intervene with the GDC seeking a repeat of the debate of 1936 on the cause of crooked teeth.

Firstly, I do not accept that the GDC have a role in promoting such a debate.

Secondly, I have no influence over the GDC. The decision as to whether they feel it is appropriate is theirs.

Thank you again for your letter.

Yours sincerely,
