HOUSE OF COMMONS
LONDON, [REDACTED]

10 February 2011

Dear Dr. Mew,

Thank you for your further letter regarding your and your father's approach on orthodontics.

I am afraid there is no way in which I am able to assist you. I am and have been for some considerable time, aware of your approach on orthodontics. It is for you to prove your position before any change can take place.

Yours sincerely,
